Dear Lynn,

Here is the application to expand the mine we have in Henefer from a small mining permit to a large mining permit. All the information should be here, except for the vegetation survey. As soon as weather allows we will have the vegetation survey done. I'll call you to see if you know of anyone who can do this.

Please excuse us for the extensive geologic descriptions in the application. Our consultant is a PhD in geology, and loves his profession.

If there are any questions or follow-ups needed to complete the permitting process please call me at any time.

Sincerely,
